The German-Greek artist residency programme 'Modern Fiction' was created in cooperation between Athens School of Fine Arts and MeetFrida Foundation. As part of the programme, six artists from Hamburg travel to Hydra in June. For four weeks, they will use Hydra as a place of production, exploration and dialogue, developing and exhibiting their artistic works.

Five Greek artists already travelled to the German Hanseatic city of Hamburg in April and May 2024. They presented the works they created there as part of a two-week exhibition. The exchange is intended to strengthen Hydra and Hamburg as art locations and bring the German-Greek community closer together.

The artist residency is thematically dedicated to analyzing and questioning social and cultural traditions in Greece and Germany in the field of visual arts and their impact on contemporary art production.

Artists from Germany: Marc Einsiedel, Jana Schumacher, Penny Monogiou + Lucas Betz (LUPE), Katja Windau, Sam Gora

Artists from Greece: Alexis Fidetzis, Dr. Erato Hadjisavva, Vasso Tzouti, Nikos Papadopoulos, Natasa Biza
